

Technology Comparison: Total Cost of Ownership

Q How do two popular materials handling technologies stack up when it comes to urea prill?

Case Study: Materials handling for urea prill

- Infeed: Truck unloading feeder
- Inlet: Adapter for process connection
- Discharge: Storage silo Inlet @ 15m elevation
- Throughput: 80 tonnes (88 short tons) per hour
- Material: Urea prill

Floveyor Aero-Mechanical Conveyor

- 5-inch conveying tubes
- Stainless steel 316 contact materials
- Stainless steel 316 structure
- 55' (16.8 meters) long
- C/W dry cleaning accessories

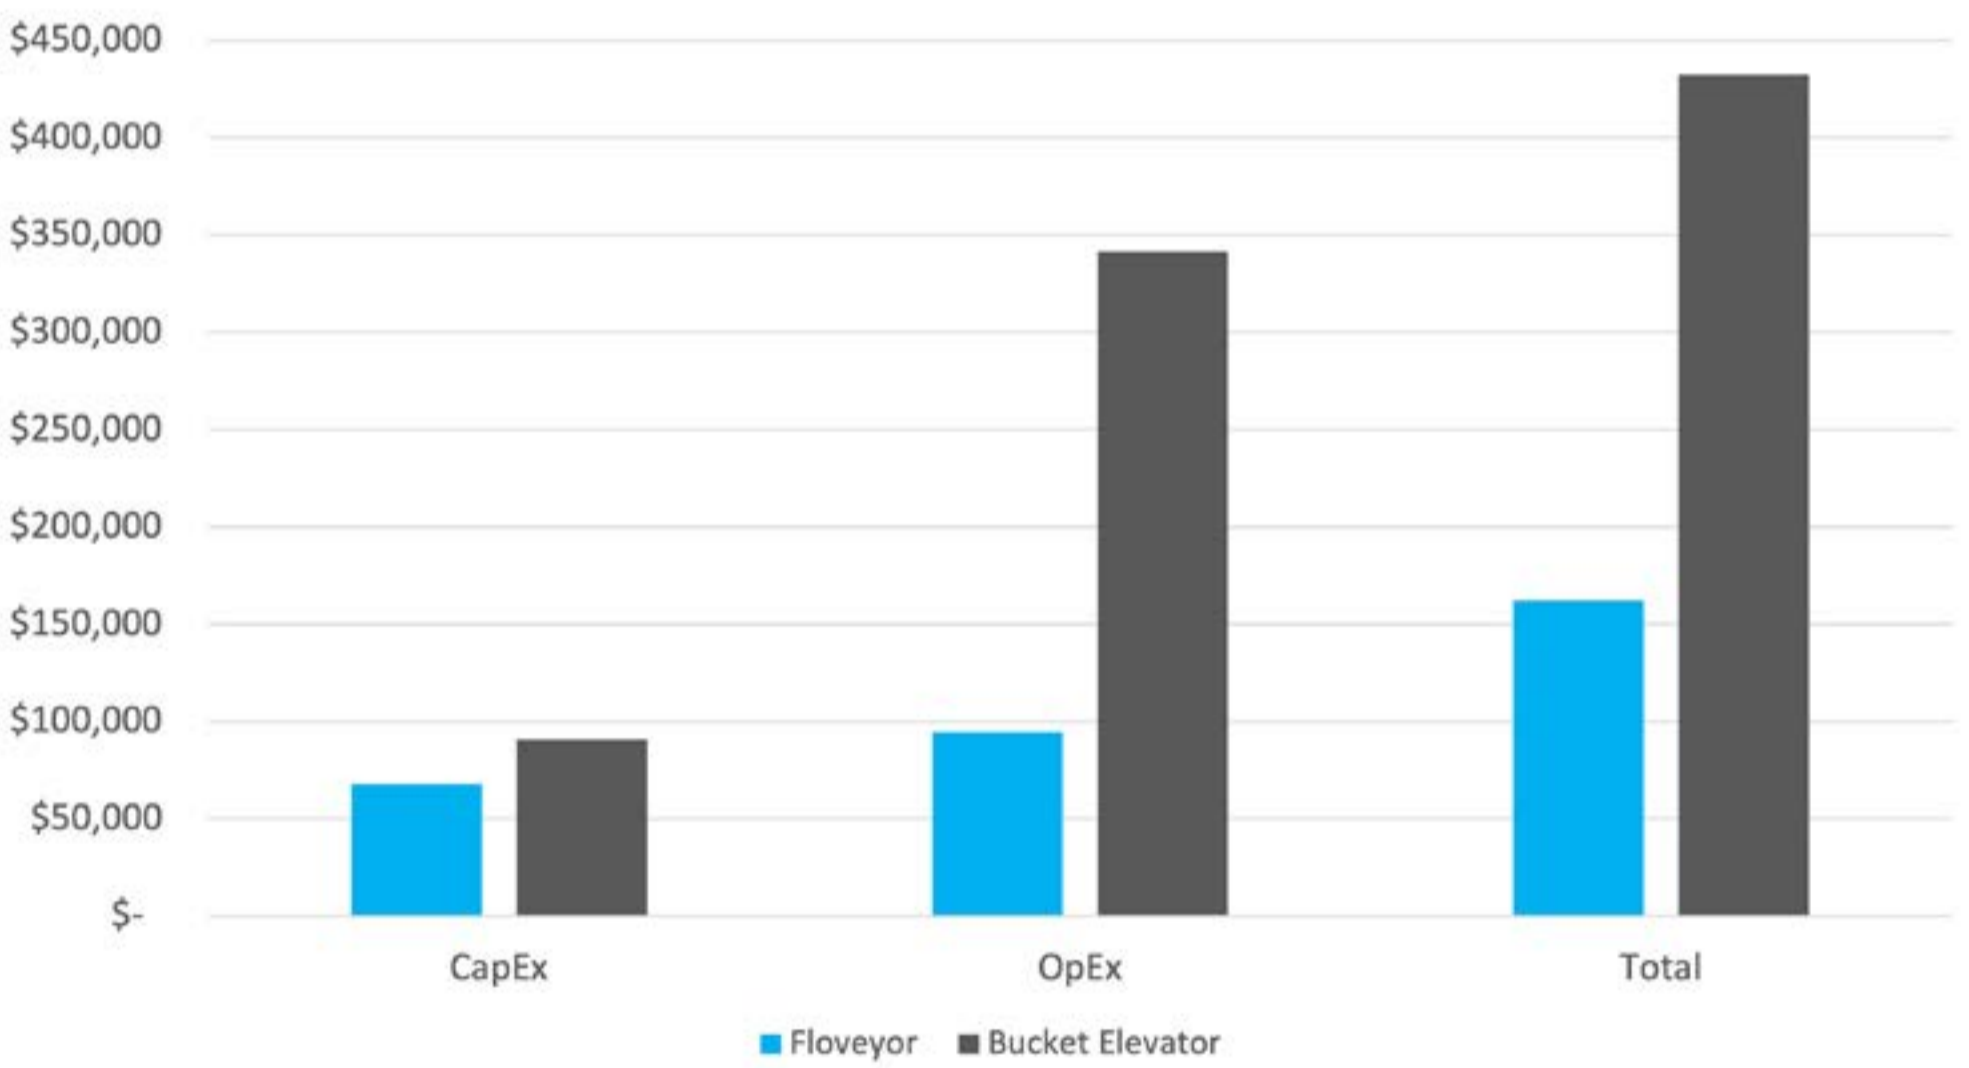

VS

Bucket Elevator

- Chain-driven, replaceable buckets
- Stainless steel 316 contact materials
- Stainless steel 316 structure
- 55' (16.8 meters) long
- C/W structural supports
