

Environmental Savings

Case Study: Granulated Sugar

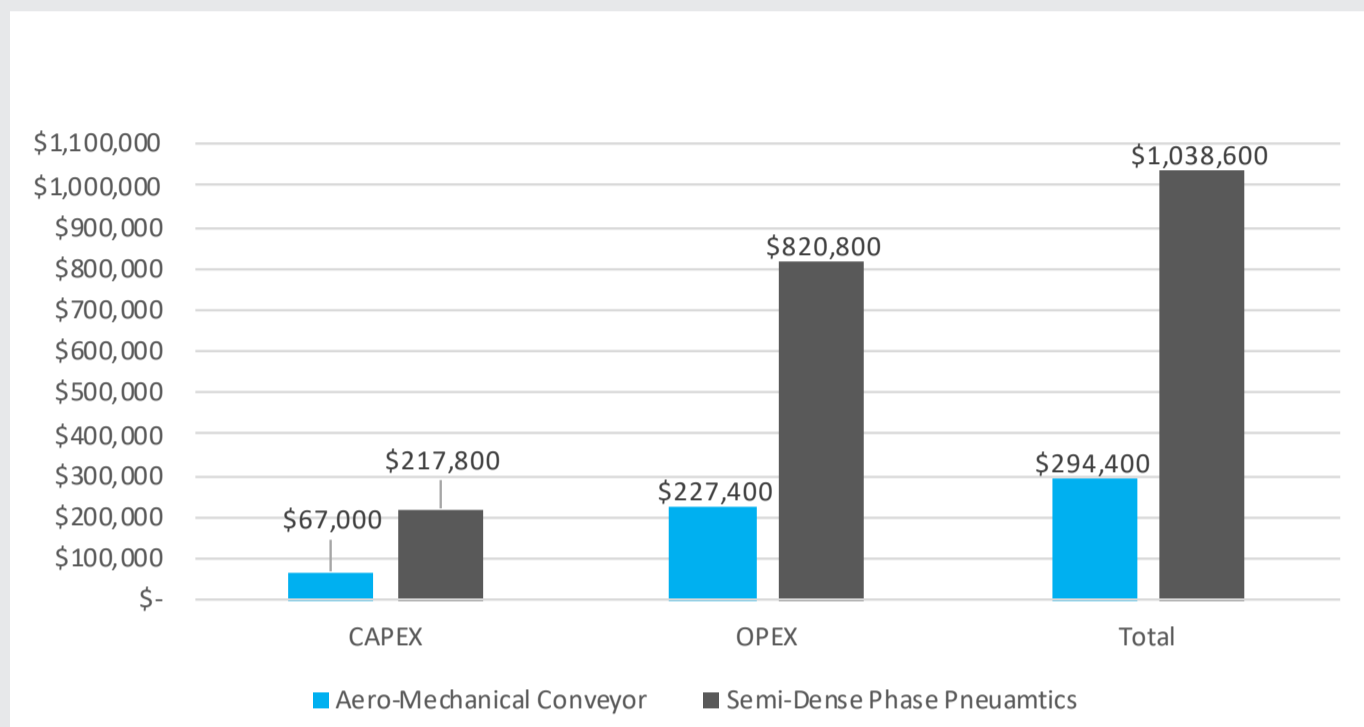

Q How does an aero-mechanical conveyor compare to semi-dense phase pneumatics?

Environmental savings:

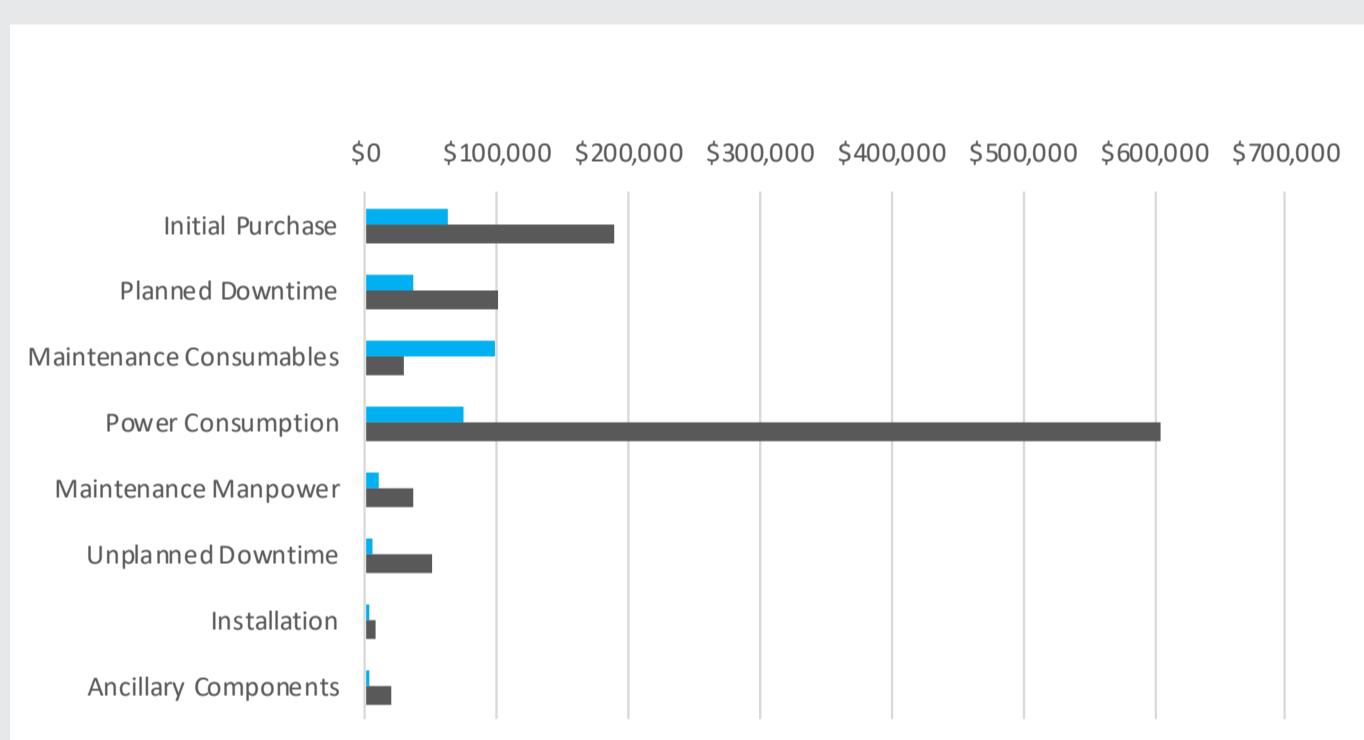

192 tonnes
of CO2 pollution per year

1,921 tonnes
of CO2 pollution over a 10-year period

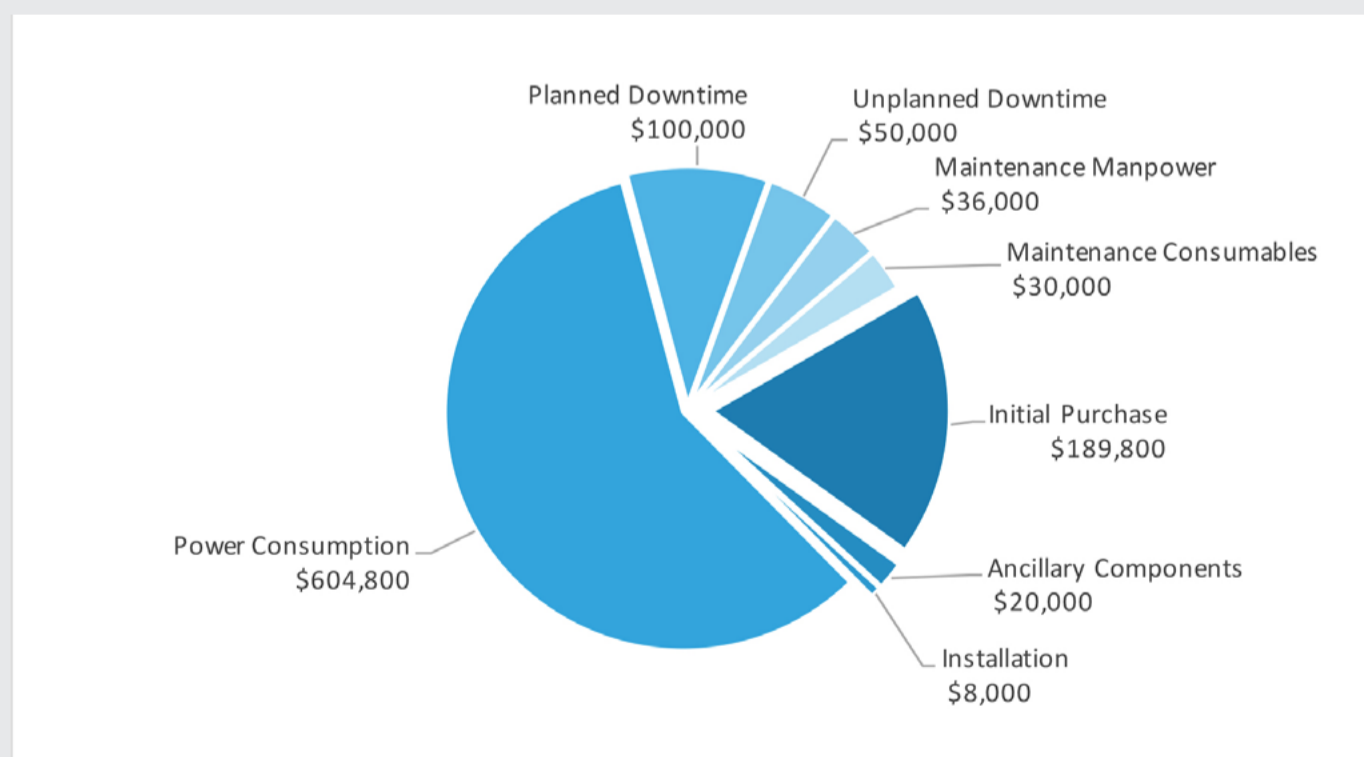

Granulated Sugar Silo to Mixer Inlet @ 18m (59ft) 20tph (22stph)

Total Cost of Ownership Aero-Mechanical Conveyor

Total Cost of Ownership Semi-Dense Phase Pneumatics

Total CO2 Emissions By Conveying Technology
